Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant and Examiner discussed proposed amendments and worked to determine intent of amendment. Examiner suggested clarification of "sample" and of the sample selection in cases i-iii of proposed claim 1. Applicant requested an opportunity to propose new amendments to claim 1 in order to incorporate discussed suggestions. Examiner agreed that if the intent of the proposed amendment was properly worded it would overcome the prior art currently relied upon. Examiner informed Applicant of possible obviousness rejection for duplication of process. Applicant discussed the incorporation of the invention into video coding standards and its commercial success. Examiner informed applicant that further such would also be necessary. Applicant agreed to submit new proposed amendments for discussion.
